The  
Future

Mission

To empower students,  
through quality education  
to lead powerful  
and happy lives.

## About us

Rasbihari International School is revered for bringing Global Best Practices of education to Nashik. Since inception, Rasbihari International School has always been pushing the boundaries of education in Nashik, especially for character building, learning and teaching practices.

Rasbihari International School's aim is to expose its students to all facets of life, impart conceptual education that shapes and forms their thinking and makes them productive, sensitive and international minded citizens for their societies.

Founded in 1994 and managed by Shriman Kisanlalji Sarda Pratishthan, Rasbihari International School operates with a pure philanthropic objective. Global Best Practices are brought to the students at a cost congruent with India, only because of pure intent and integrity that Rasbihari International School possesses.

Spread across 5 acres, the facilities are constantly being upgraded against the Best Functional Bench Marks from across the globe. The overarching thought is to provide all that is possible but within an affordable cost.

Some of the practices that make Rasbihari distinctive from other schools in Nashik and make it comparable to Global Best Practices are:

- ♦ 25 students to a class room, leading to a teacher student ratio of 1:14. *(There is one teacher for every 14 students)*
- ♦ Computers in every classroom and not just in the IT lab
- ♦ Global teacher training for teachers on an ongoing basis
- ♦ Extra-Curricular activities and Co-Curricular activities as a part of time table for every child. Every child gets exposed to arts, music, craft, drama, sports, public speaking, etc.
- ♦ Formal focus on character building and behavior of students
- ♦ Events and competition across sports, drama, music ... to provide opportunity for every child to build esteem, practice and compete
- ♦ The only school in Nashik with IB accreditation for the PYP program
- ♦ One of the lowest cost IB-PYP schools in the world!

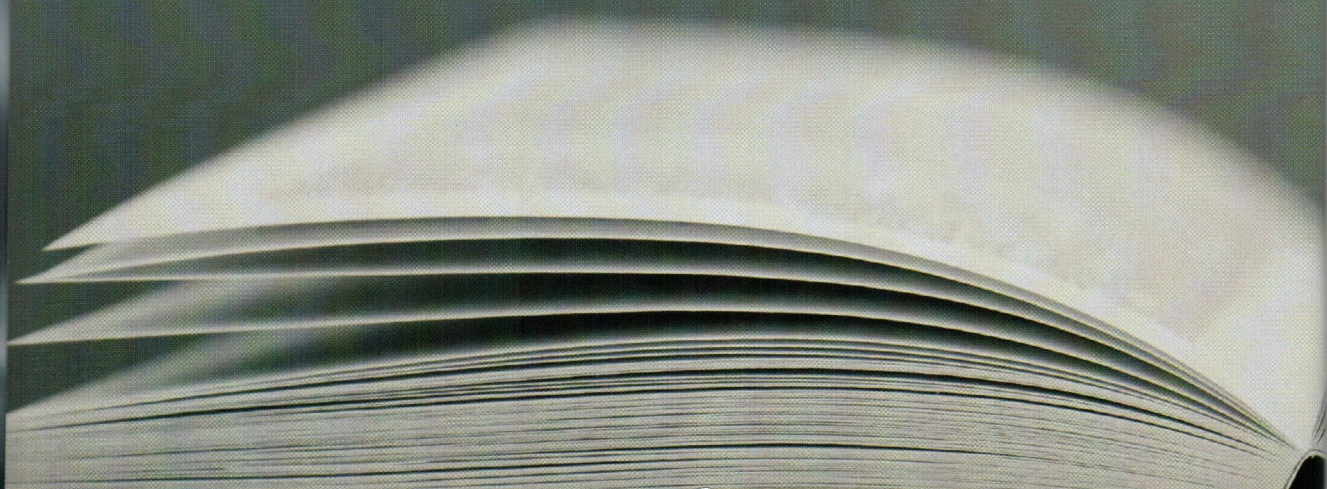

## The Class Rooms

Globally, it is accepted that one of the most important factors that affect teaching and learning is the number of students in each class. The student to teacher ratio is a vital factor while choosing the school for a child.

Teacher to student ratio determines the cost incurred by the school and hence the tuition fees. While Rasbihari International School ensures the

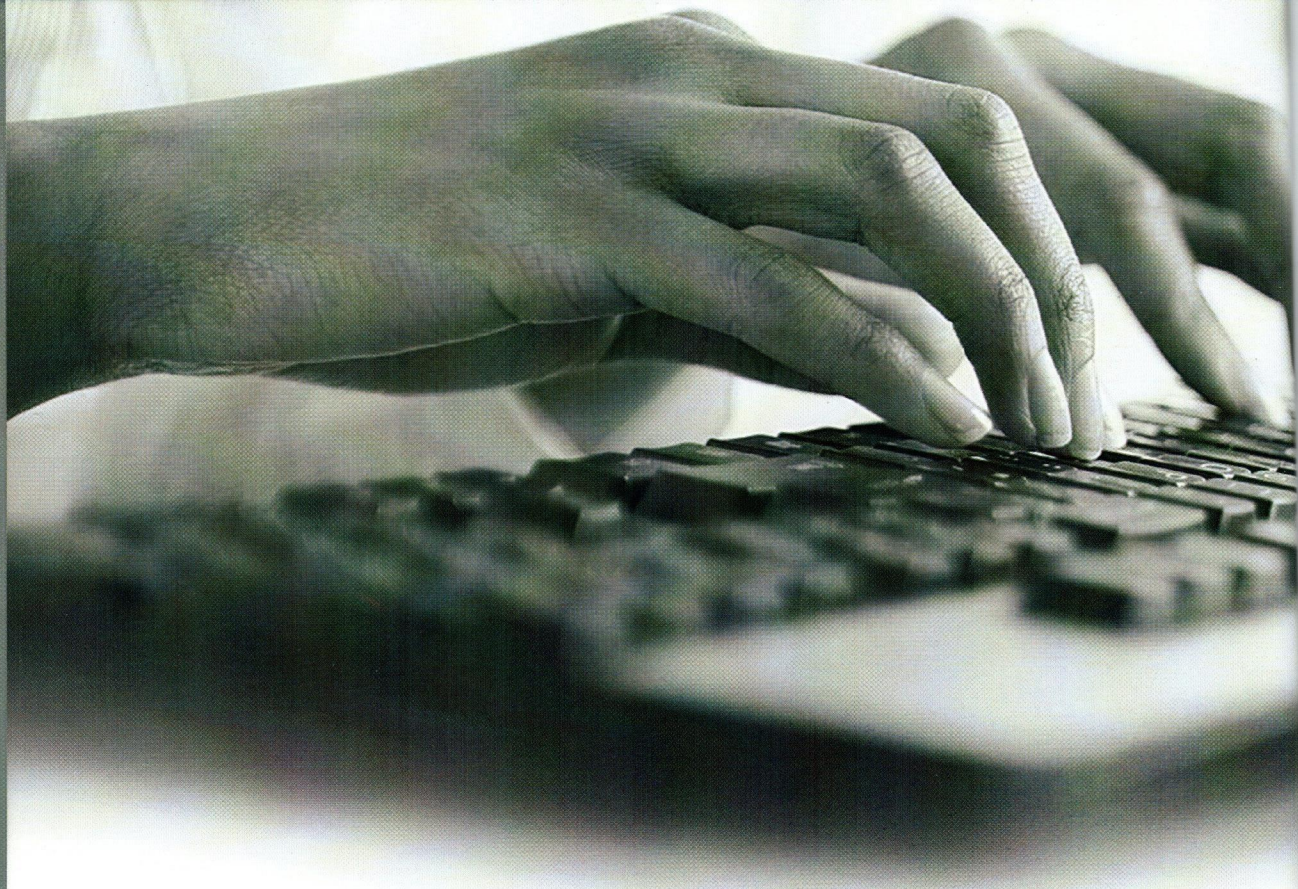

ratio to be as close to the Global Best Practices in student-teacher ratio, the tuition fee structure is comparable and in line with schools in Nashik.

Rasbihari International School ensures that the number of students in a class ranges between 20 and 25, while ensuring there is one full time teacher for every 14 students.

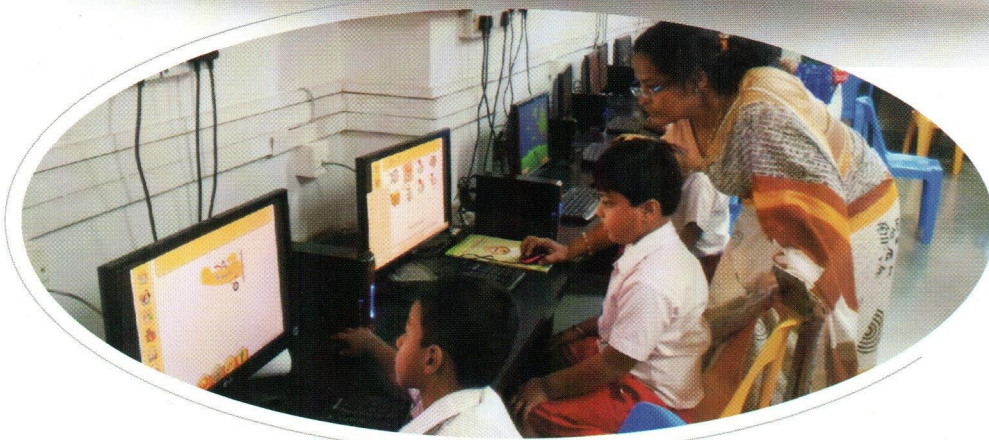

## Digital technology

Children today will grow up to a world that breathes and lives digital technology, so it is imperative to develop an innate comfort with technology that is productive and life enhancing. Innate comfort is beyond comfort and it requires a serious rigor that ensures that the osmosis of human and technology is complete. At Rasbihari International School, digital technology is not something that has a specific period assigned to it but is a part of teaching and learning process.

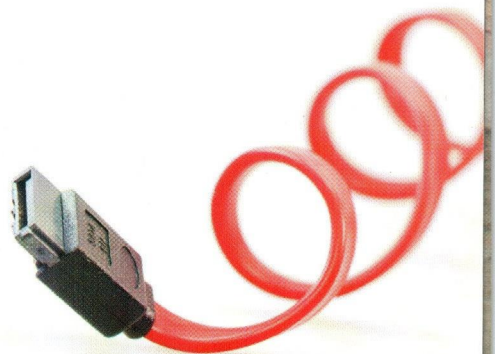

Every classroom has IT infrastructure that allows children to think about IT as a natural extension of what they do, rather than a specialised activity done with a narrow purpose.

Rasbihari International School is committed to building a native comfort with productive digital technologies, to ensure that the children grow up adopting technology as a part of their life, like language rather than being afraid of this transformation the world is coming into.

## Global Teachers Training

Rasbihari International School believes that the teachers have to be role models and not just educators. That necessarily means that teachers must model all the characteristics we value and are trying to inculcate in our children. One of the key endeavor at Rasbihari International School for students is to be lifelong learners. Therefore the teachers have to demonstrate this vividly.

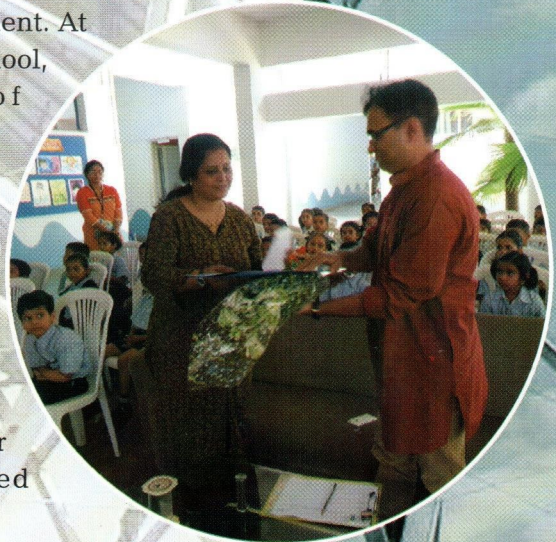

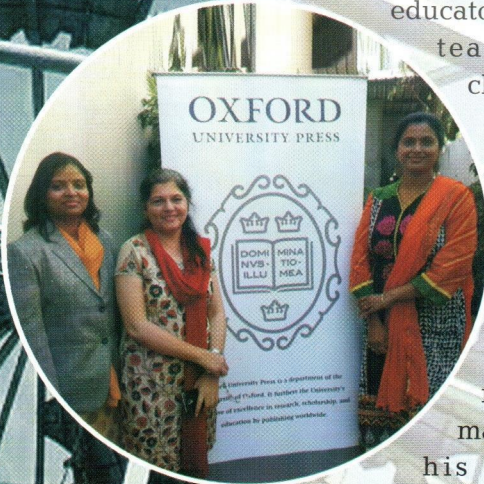

Rasbihari International School requires that every teacher, no matter how experienced, enhances his or her skills with

Professional Development. At

Rasbihari International School, global frameworks of professional development is used to make sure, teachers are consistently delivering better.

The school also facilitates personal development by getting globally accredited faculty and workshops, and sending selected teachers for internationally recognised workshops.

While choosing a school it is important to take into account the number of hours teachers spend in learning formally.

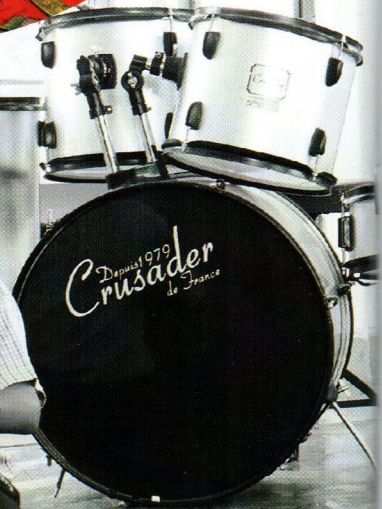

# Extra-Curricular and Co-Curricular Activities

In line with International Best Practices, Extra-Curricular and Co-Curricular activities are part of the curriculum in Rasbihari International School.

Rasbihari International School firmly believes that beyond-class room activities go a long way in developing a student's social, cognitive, interpersonal faculties. At Rasbihari International School the time table

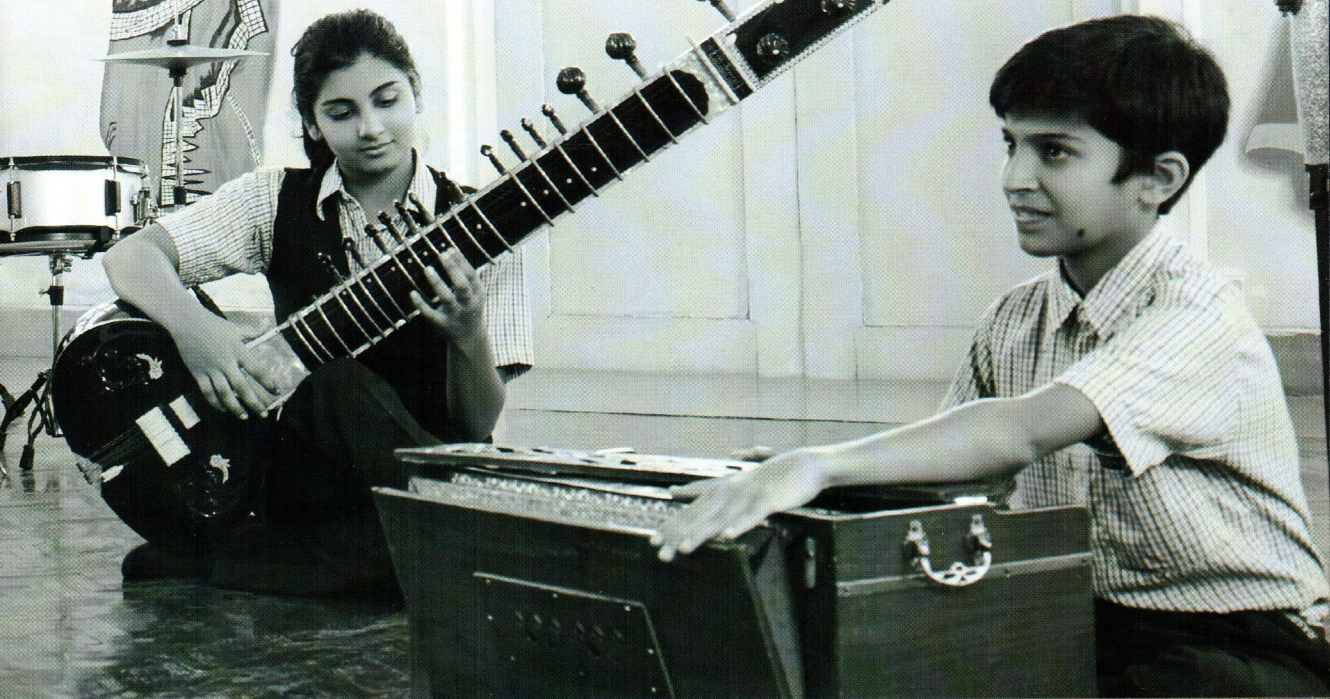

insists that and students participate in arts, music, crafts, drama, sports and public speaking and no extra charge/fees is ever levied for these activities.

Rasbihari International School understands that participation in these activities provides much more than an outlet and builds competitive spirit combined with team work and self-esteem.

# Nursery

Nursery actually means 'one which nurtures' and Rasbihari International School has incorporated the best practices from the International education forums to build the curriculum for nurturing the young minds.

The kids play, express themselves, and enjoy while unobtrusively being guided by a confluence of international technology of teaching that ensures that they get ready for higher education.

The best of international "Play Way" methodology is used to introduce the young minds to Mathematics, Linguistic, Physical, cognitive, social, personal, hygiene and emotional development.

The nursery section building is designed as per international norms. This open air building with plenty of natural light, gives the kids a feel of a vast open space which fuels their creativity.

# Facilities and Services

Rasbihari International School campus is spread across 5 acres, which houses the primary school block, the main academic block, the administrative block and the play grounds.

## Laboratories:

Children are encouraged to conduct experiments in the Physics, Chemistry and Biology Labs to learn concepts and see theory in action. All three labs are well equipped with the students being mentored by well-trained teachers and supported by lab assistants.

## Educational Resource Centres:

Internationally, school libraries are not just a storage for books but also a centre of learning, where the resources are used and students are guided to use them in a manner it enhances their learning. Rasbihari International School resource centre has over 20,000 books. Reference DVDs, Newspapers, Magazines and periodicals are available for the students. More over the manager of the resource centre organises various projects for students to inculcate a sense of learning through reading.

## Special Attention Program

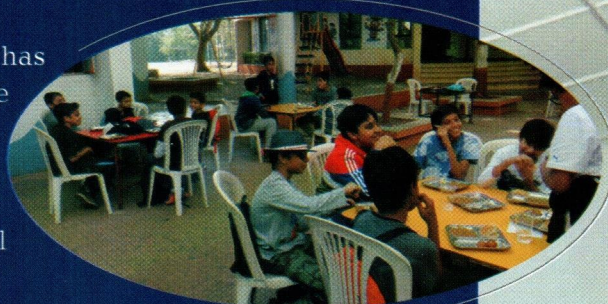

Rashbihari International School understands that some students need extra help in some subjects. Special Attention programs are designed to ensure teachers support students with remedial classes.

## Bus Facility

Bus service are available from and to all corners of Nashik and each bus is chaperoned by a caretaker and bus helper.

## Food Hub

Rashbihari International School has a dedicated canteen where nutritious, hygienic and tasty food is prepared for children. Traditional Indian and Fusion Chinese food is available to all students.

## Spirituality

Rashbihari International School is religion neutral and does not discriminate against any religion, caste or creed.

Students are encouraged to participate in non-religious meditations, which enhances their mental faculty.

A regular congregational prayer meeting is held every day to show a strength of unity in our diversity.
